RECOMMENDATION

That Edmonton Public Schools' *Three-Year Education Plan 2000-2003* be approved for forwarding to Alberta Learning.

* * * * *

In response to provincial requirements for an annual three-year education plan, an updated three-year education plan for the district (Attachment I) has been developed based on the district's budget planning process. The primary change in provincial requirements is the need for school jurisdictions to align their results in response to the revised Alberta Learning goals. After review and approval by the board, the report will be submitted to Alberta Learning.
