INFORMATION

The Alexander Rutherford Scholarships recognize and reward exceptional performance at the high school level and encourage students to continue their studies. Recipients must be Alberta residents who have completed high school, and have enrolled in a post-secondary program. The scholarship is based on scholastic performance in grades 10, 11, and 12 with \$400, \$800, and \$1300 awarded respectively. Students who achieve an average of 80 per cent or higher in five specified subjects receive scholarships (Appendix I).

The dollar values listed above represent a change that took effect as of April 1, 1999. These new values allow students to receive a total of \$2500 if they qualify for all three high school grades. The previous maximum value was \$1500.

Table 1 provides a comparison of the number of district students who have qualified for the scholarships for the past six years. A total of 1049 district students received Alexander Rutherford Scholarships in 2000. This is an increase of 42 students from 1999, and represents the highest number of district graduates ever receiving Rutherford Scholarships.
