

EDMONTON PUBLIC SCHOOLS

April 15, 2008

TO: Board of Trustees
FROM: Trustee G. Rice
SUBJECT: Motion re Comprehensive School Health Symposium

RECOMMENDATION

That Edmonton Public Schools develop a plan for a one-day comprehensive school health symposium and implementation timeline that would include staff and administration representatives from all district schools.

* * * * *

The purpose of the symposium would be to share school successes, successful practices, lessons learned and to brainstorm solutions to challenges. This full symposium could then be followed up as warranted by division-level symposiums that could include students and staff. Consideration could be given to inviting separate system staff to participate.

Notice of the above motion was served at the March 25, 2008 board meeting.
